

QUALITY, ENVIRONMENT AND WORKPLACE HEALTH AND SAFETY INTEGRATED SYSTEM

ATTACHMENT 5

With the beginning of the Executive Plan born to create an Integrated System (IS) of Quality, Environment and Workplace health and safety, the **LABORPLAST SRL** Management is responsible for verifying the expectations of customers, employees and involved lands, that are:

PVC COMPOUND, CORES AND SEMI-FINISHED (FULL AND HOLLOWED) PRODUCTS

Turning them into requirements to improve the quality of its processes and activities.

Quality Integrated System

The management undertakes to activate a certifiable Quality System that can allow the identification of:

- ⇒ Customers' needs;
- ⇒ Customers' expectations;
- ⇒ Elements of continuous improvement;
- ⇒ Internal and external risks and opportunities;
- ⇒ Stakeholders;
- ⇒ Quality goals.

The right application of the IS allows the Management to check the milestones of **LABORPLAST SRL** prosperity, that are:

- ⇒ Customer satisfaction;
- ⇒ Other stakeholder needs;
- ⇒ Business opportunity;
- ⇒ Resources required for constant improvement.

To achieve these targets, the Management is responsible for:

- ⇒ Grant the match between the target and the strategy;
- ⇒ Let internal and external stakeholders know quality targets;
- ⇒ Demonstrate efforts to improve the IS;
- ⇒ Provide necessary resources to achieve quality goals;
- ⇒ Lead the company to continuous improvement.

Environmental Integrated System

LABORPLAST SRL is involved in reaching an ecological policy, to allow a sustainable development.

The Management promotes actions whose purposes are environmental protection and pollution reduction. The main goal is the constant improvement of the environmental performances, if technically and economically allowed.

In this kind of policy, the targets of **LABORPLAST SRL** are defined as follow:

- ⇒ Ground and underground protection;
- ⇒ Idrical parts protection;
- ⇒ Air protection;
- ⇒ Encouragement of training about environmental protection;

QUALITY, ENVIRONMENT AND WORKPLACE HEALTH AND SAFETY INTEGRATED SYSTEM

ATTACHMENT 5

- ⇒ Respect of environmental laws;
- ⇒ Respect of legal obligations in terms of permissions given by authority;
- ⇒ Cooperation with all the stakeholder to promote sustainable development and environmental protection.

Workplace Health and Safety Integrated System

LABORPLAST SRL aims to adopt safety policy as essential element to assure stakeholders' safety and health.

LABORPLAST SRL wants to operate respecting all the employees, customers and external community safety, preventing accidents and reducing each kind of dangerous effect.

LABORPLAST SRL constantly checks its providers' safety standard, to improve the safety general context.

LABORPLAST SRL introduced the IS to assure that its activities are done in safe conditions, based on the principles of this Safety Policy.

LABORPLAST SRL issues and develops updated safety and health plans.

The Management, in order to improve internal learning processes and to develop 'Safety Culture' and to obtain economical advantages as:

- ⇒ Accident reduction;
- ⇒ Prevention from professional diseases;
- ⇒ Defeat of turn-over caused by the injured replacement;
- ⇒ Reduction of insurance costs;
- ⇒ Reduction of penalties risks;
- ⇒ Enforcement of D.Lgs 81/08, D.Lgs 106/09;

Realised an IS to accomplish legal requirements; the reference legislation is the UNI EN ISO 45001:2008 - Occupational health and safety management system.

To assure the execution of Quality, Environment and Workplace health and safety Policy, LABORPLAST SRL commits to:

- **Check all activities that may influence quality, safety and environmental impacts of its products;**
- **Collect and analyse the data which allow to define and implement the right actions destined to delete potential non-compliance causes;**
- **Increase Employees motivation thanks to professional growth;**
- **Reduce internal inefficiency, through an accurate management of resources and processes.**
